This series of classes will help those further along their path, those practicing at more advanced levels. It is suggested that those attending have an understanding of mediumship and its methods of discernment.

Progressive methods for private sittings, public demonstrations as well as methods for a more intimate connection to the Spirit realm will be concentrated on. All classes will be taught in easy to understand concepts and language, with accompanying written lessons. The techniques will bring you into a personal as well as a truly intimate connection to the “*Spiritual Power*” of self and the purpose you are meant for with that power.

As we move along our Spiritual path, we are always questioning if we are on the right course. These classes are designed to take you the next step towards knowing your own true path and developing a trust and comfort with it, through intuitive and mystical methods of discernment.

Reverend Stephen G. Adkins has studied and performed public demonstrations in the United Kingdom, as well as throughout the USA and will be bringing 15 years of experience with these methods and techniques to you in this forum. Reverend Adkins holds a Class “B” membership in the SNU and a membership in the SCSCMA. (Southern Cassadaga Spiritualist Camp) Steve is a certified medium, healer and an ordained minister of the SCSCMA.
